

UIS DBP™ Digger Blade Protector

Mini Excavator Attachment for damage free digging operations

UIS DBP™ digger blade protector provides a unique and innovative improvement to standard digging techniques.

UIS Ltd are proud to present the UIS DBP™ digger blade protector. Simple to attach to the majority of mechanical mini-excavators and requiring no extensive training to use, DBP™ provides full protection from damage to surface areas during all digging operations.

Utilising DBP™ contractors can benefit from huge cost savings by avoiding financial penalties caused by site damages, extra labour & material costs incurred in repairs and possible missed project deadlines.

UIS DBP™ is simple and innovative in design with features allowing operatives to quickly attach to most digger blades. Robust and able to withstand harsh environments, DBP™ removes the possibility surface rubbing & gouging helping contractors to better conform to new Hauc & Road and street works act legislation.
